

Compliance & Product Regulatory Approvals
A Global Test & Certification and Company

Monthly Global Newsletter

May 2025 Edition

Welcome to the May 2025 edition of C-PRAV's Monthly Global Newsletter!

As we head into mid-year, global regulatory activity continues to gain momentum. From **Bermuda easing type approval** for wireless devices, to **Saudi Arabia debuting the world's first smart WiFi-7 network**, and **Australia reviewing updates to its LIPD Class Licence**, May has been packed with important developments across the telecom and compliance landscape.

We've also tracked key shifts in **Asia**, including **Thailand's frequency auction**, **Bangladesh's delay on dual-band Wi-Fi router enforcement**, and **Cambodia's new TRC requirements**. On the global front, **Chile's push for charger standardization**, **Ghana aligning spectrum allocation with ITU**, and **Indonesia's 2.6 GHz spectrum consultation** are setting the stage for greater harmonization and innovation.

In India, the **BIS update on low-voltage switchgear certification** is one to watch, while the **EU's latest decision (2025/893) on RED** reflects ongoing regulatory refinement across member states. Also, a snapshot of our CEO's visit to the EU events, REDCA, EMCTLA, EMC & CI.

As always, C-PRAV is here to keep you informed — and to help you navigate these changes with confidence.

Choose Compliance. Choose Certifications.
Choose C-PRAV with Confidence.

Praveen's EU Trip

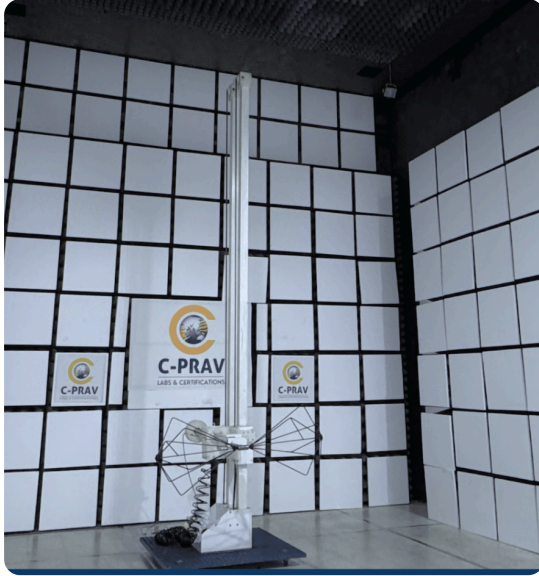

Our CEO, Praveen Rao, recently returned from a dynamic two-week journey across Europe, representing C-PRAV at three leading global compliance and EMC events. From the REDCA meeting in Prague (13–15 May), which brought together 300+ global participants and focused heavily on the RED and cybersecurity regulations, to the EMCTLA and EMC & CI events held at Oxford University (19–21 May), the trip was packed with insightful discussions, top-tier presentations, and deep dives into international standards. Praveen also presented a global snapshot on Standards, Regulations, Testing & Certifications.

Electronex 2025

Team C-PRAV had a fantastic showing at Electronex 2025, connecting with industry professionals, innovators, and design engineers from across Australia. From meaningful conversations at Stall A29 to insightful discussions during the networking cocktail event, the energy was high and the interest even higher. A standout moment was the presentation by our CEO, Mr. Praveen Rao, who delivered practical insights on achieving product compliance and navigating international certification pathways. Thanks to everyone who visited us — and if you missed it, we'll see you at the next one!
